

CORNWALL

BLACK ROCK FOREST
-- The Mineral Springs entrance to Black Rock Forest is closed. The consortium regrets the inconvenience, but the Cornwall Department of Police made the request due to public health and safety concerns. Black Rock Forest trails remain open at this time; use the other entrances, especially Reservoir Rd. Be mindful of overcrowding during these difficult times. Park only in designated lots (not on roadsides, not blocking emergency vehicle access); visit during off-hours (weekdays, mornings, evenings after 5:30, etc); observe social distancing guidelines and give people plenty of space to pass. Do not hike in groups. Working together enables Black Rock to stay open.
